

A VIEW OF ENGINEERING & MANUFACTURING

We asked engineering & manufacturing professionals about their work experience, trends and prospects. The results are below:

57% "Due to a lack of suitable technical staff, I can pick and choose the jobs I want"

29% "My specific knowledge/background makes it difficult to find a suitable position"

82% "My work environment is becoming increasingly international"

58% "I am prepared to take on international projects, on location, for longer time periods"

91% "My profession is becoming increasingly multidisciplinary"

EMERGING DISCIPLINES

1

Technical business

2

Mechanical Engineering

3

Industrial Automation

4

Mechatronics (Engineering)

5

Electrical Engineering
